

SHUBHDEEP SARKAR

5107, Truemper Way, Fort Wayne, IN| P: +1 (260) 418-4843 | sarkarshubhdeep2@gmail.com

PROFESSIONAL SUMMARY

Versatile software developer with solid professional and hands-on experience across both frontend and systems-level development. Skilled in building high-performance applications using technologies like React, TypeScript, C++, Python, and SQL. Comfortable working across the stack—from intuitive user interfaces to efficient backend logic. Known for writing clean, maintainable code and approaching problems with clarity, curiosity, and a strong focus on continuous improvement.

SKILLS

TECHNICAL SKILLS

React.js, TypeScript, JavaScript (ES6+), Next.js, Tailwind CSS, Angular, Three.js, Kotlin, Dart, Flutter, Swift, Python, C++, Java, Node.js, REST APIs, GraphQL, SQL, PostgreSQL, Supabase, Auth Docker, Git, GitHub, CI/CD, Unit Testing, Cypress, Jest, Responsive Design, Frontend Architecture, Component Design

TOOLS, PRACTICES & WORKFLOW

Agile Methodologies, Code Reviews, Problem Solving, AI-assisted Development (Cursor, ChatGPT, GitHub Copilot), Clean Code Practices, Test-Driven Development, Pair Programming, Communication, Team Collaboration, Jira

WORK & INTERNSHIP

GRADUATE LEVEL TEACHING ASSISTANT - FULL STACK WEB DEVELOPMENT

Purdue University

Fort Wayne, IN
Sep 2024 - May 2025

- Reviewed full stack assignments and projects from **80+ students** across 2 semesters, covering **React, Next.js, Django, MongoDB, Express**, and modern databases.
- Provided feedback and debugged frontend/backend issues, optimized logic, and ensured API reliability and UI responsiveness.
- Guided students on effective **Git/GitHub workflows**, fostering best practices in collaboration and version control.

SOFTWARE DEVELOPER

GlobeMinded

India
Sep 2022 - Jul 2023

- Built and maintained 3+ cross-platform mobile apps using **Java, Flutter**, integrated with **Django** and **MySQL**, improving development efficiency.
- Developed and deployed REST APIs that served hundreds of monthly users with consistent performance and reliability.
- Managed Git workflows for a 5-member team, resolving frequent merge issues and ensuring smooth collaboration across feature branches.

WEB DEVELOPER INTERN

XenonNation, Ladder Corp.

India
Jul 2019 - Jan 2020

- Practiced core web development using **HTML, CSS, JavaScript**, and responsive design techniques.
- Conducted **user research surveys** and incorporated insights into UI improvements.
- Collaborated with the client in the later stages of development to align features with evolving expectations.

EDUCATION

MASTERS IN COMPUTER SCIENCE

Purdue University

Fort Wayne, IN
Aug 2023 – May 2025

Courses: UX Independent Study, Low-Code/No-Code Rapid Prototyping, Full-Stack Development, Game Design, Machine Learning, NLP, Software Engineering, Database Systems

POST GRADUATE DIPLOMA IN COMPUTER APPLICATIONS

Devi Ahilya University

India
Jun 2021 - Aug 2022

Top of the class, led term project.

BACHELORS IN COMPUTER APPLICATIONS

Prestige Institute of Management and Research

India
Jun 2017 – Sep 2020

Graduated with distinction, Represented college in state-level ML competition

RECENT PROJECTS

WEEKWISE - FULL STACK WEEKLY PLANNER

- Full-stack planning app built with **Next.js, Tailwind CSS, Radix UI**, and **Supabase**. Implemented reusable components, smooth UI transitions with **Motion**, and dynamic weekly views.
- Features include **keyboard shortcuts for rapid task actions, week switching logic, task filtering by tags**, and **auto-saving with Supabase**. Designed for a seamless user experience with responsiveness and performance in mind.

MOMENTUM - PRODUCTIVITY + ANALYTICS TRACKER

- Combined **OLTP and OLAP design** to track tasks and focus sessions. Developed with **Next.js, Tailwind CSS**, and **Supabase**, focusing on structured data insights and interactive UX.
- Built a fully interactive **dashboard with real-time data visualization, calendar-based view, session timer with automatic logging**, and **tag-based task categorization**.

HABITAT - APARTMENT MANAGEMENT APPLICATION (UX Independent Study)

- A mobile-first apartment management app designed in **Figma**, focused on usability for tenants and property managers. Covered the full UX workflow—from user research and persona creation to **wireframes, high-fidelity prototypes**, and **usability testing**.
- Included a structured **design system** with reusable components, clear typography, and consistent color tokens. Designed key features like **maintenance requests, rent payments, resident dashboard**, and **profile management**, with an emphasis on **accessibility** and **mobile-first clarity**.
